

## ACKNOWLEDGMENTS

This special issue of *New Solutions* is made possible by the generous support of The Heinz Endowments.

The Blue Green Alliance (BGA) is a national partnership of labor unions and environmental organizations dedicated to expanding the number and quality of jobs in the green economy. Launched by the United Steelworkers and the Sierra Club in 2006, BGA has since grown to include the Communications Workers of America, Natural Resources Defense Council, Laborers' International Union of North America and Service Employees International Union—uniting more than six million people in pursuit of good jobs, a clean environment and a green economy. BGA is also a grassroots partner in the Alliance for Climate Protection, founded by Vice President Al Gore.

BGA thanks its six partner organizations for their tireless commitment and its six partner organizations for their efforts to coordinate the Good Jobs, Green Jobs conference. BGA also acknowledges the support and contributions of all of the funders, sponsors, and conveners of the 2009 Good Jobs, Green Jobs event.

**Conference Funders:** Alliance for Climate Protection; Energy Foundation; French American Charitable Trust; The Heinz Endowments; Nathan Cummings Foundation; Solidago Foundation; Surdna Foundation; Tides Foundation; and Wallace Global Fund.
